Technical Guide

Clear Corrugated Sheet Ranges

The Corrapol® Clear Corrugated sheet range is manufactured for a wide variety of applications and offers different extrusions for varying longevity and budget requirements. The Corrapol® Stormproof provides a long lasting superior corrugated roof glazing solution, whereas the Corrapol® DIY grade provides a more cost effective option. This brochure provides a guide as to the range and specific benefits of each extrusion type which we manufacture, along with some technical data, and installation guidelines.

Common uses:

- ✓ Carports
- ✓ Greenhouses
- ✓ Canopies
- ✓ Shelters
- ✓ Verandahs
- ✓ Covered Walkways
- ✓ Swimming Pools
- ✓ Factory Partitions
- ✓ Cold Frames

Qualities:

- ✓ Suits a range of budgets
- ✓ World Class Flashings and Accessories
- ✓ Installer Friendly
- ✓ Universal Corrapol® Profile

Corrapol® : Full Roof Structure

Below is a typical apex roof scenario showing how the Corrapol® system components are installed together for perfect results. The same methods and components can be used in most applications from Carports, Decking covers, BBQ shelters and other constructions.

Refer to the *Corrapol® Installation Guide*

Fully constructed Corrapol® roof

Corrapol® Stormproof® : Low and High Profiles

Corrapol® Stormproof® sheets are the strongest and longest lasting sheet within the Corrapol® range. Extruded from virtually unbreakable plastic resin Corrapol® Stormproof® clear sheets offer superior strength, excellent clarity and above all unrivalled weathering characteristics resulting in a very long lifespan. This superior strength and longevity means that Corrapol® Stormproof® clear sheets will not go yellow or brittle with age, and won't crack during installation like lower cost PVC options tend to. Corrapol® Stormproof® clear sheets are made from resin which makes them 200 times stronger than glass of the same thickness which is generally considered to be virtually unbreakable and what we call 'Stormproof®'. The UV protection layer incorporated into the manufacturing process of Corrapol® Stormproof® sheets ensures they provide superior light transmission for many years to come.

Key Benefits:

- ✓ Maintains Great Light Transmission
- ✓ UV Protected
- ✓ High Impact Strength
- ✓ Virtually Unbreakable
- ✓ Estimated 25 year Lifespan
- ✓ Doesn't discolours like cheaper alternatives
- ✓ Doesn't Crack when Fixing like PVC

Corrapol® Stormproof® high profile in-situ view

Corrapol® Stormproof® : High Profile Sheets

Most Popular: Compatible with Rock N Lock® & Super Ridge

Common Uses:

- ✓ Carports
- ✓ Canopies
- ✓ Cold Frames
- ✓ Porches
- ✓ Greenhouses
- ✓ Agricultural Buildings/Barns
- ✓ Garages
- ✓ Covered Equestrian Areas

Corrapol®: High Profile Stormproof®	Code
Corrapol® Stormproof® High Profile Sheet - 950 x 1000mm	AC801
Corrapol® Stormproof® High Profile Sheet - 950 x 2000mm	AC802
Corrapol® Stormproof® High Profile Sheet - 950 x 2500mm	AC804
Corrapol® Stormproof® High Profile Sheet - 950 x 3000mm	AC806
Corrapol® Stormproof® High Profile Sheet - 950 x 4000mm	AC808

Corrapol® Stormproof® : Low Profile Sheets

Corrapol®: Low Profile Stormproof®	Code
Corrapol® Stormproof® Low Profile Sheet - 840 X 1830mm	AC19
Corrapol® Stormproof® Low Profile Sheet - 840 X 2440mm	AC20
Corrapol® Stormproof® Low Profile Sheet - 840 X 3050mm	AC21
Corrapol® Stormproof® Low Profile Sheet - 840 X 3660mm	AC22

Corrapol®-PVC : DIY Grade Sheets

Whilst not as strong or as long lasting as the Corrapol® Stormproof range, Corrapol®-PVC DIY Grade Sheets offer a lower cost and are ideal for areas where impact resistance is not important and also where direct sunlight is limited. In areas like this, the Corrapol®-PVC DIY Grade range provides an excellent solution and will provide an excellent waterproof solution with good light transmission.

Key Benefits:

- ✓ Low Cost
- ✓ Maintains Great Light Transmission
- ✓ Allows a Degree of Visibility Whilst Retaining Privacy
- ✓ Lightweight
- ✓ Ideal for DIY

Common Uses:

- ✓ DIY Projects
- ✓ Lean-tos

Corrapol®-PVC: DIY Grade Sheet	Code
Corrapol®-PVC DIY Grade Sheet - 950 X 1000mm	AC700
Corrapol®-PVC DIY Grade Sheet - 950 X 2000mm	AC702
Corrapol®-PVC DIY Grade Sheet - 950 X 2500mm	AC704
Corrapol®-PVC DIY Grade Sheet - 950 X 3000mm	AC706

Corrapol®-GRP : Polyester Translucent Sheets

This type of Corrapol® provides excellent strength, similar to that of the Corrapol® Stormproof range, however the light transmission is lower due to the fibres in the resin mix. Where areas where direct sunlight is relatively low, the Corrapol®-GRP Translucent Sheets are an excellent solution with high impact strength and excellent rigidity.

Key Benefits:

- ✓ Provides Privacy
- ✓ Maintains Great Light Transmission
- ✓ Allows a Degree of Visibility Whilst Retaining Privacy
- ✓ High Strength
- ✓ High Rigidity

Common Uses:

- ✓ Agricultural Buildings/Barns
- ✓ Garages

Corrapol® : Rock N Lock® Gable Flashing

The Corrapol® Rock N Lock® Gable Flashing is a world first that we have manufactured to help our Distributors' Customers easily finish one of the most challenging area of any roof project; the gable. The Patent Pending and Registered Design allows users to quickly and easily create a robust, long-lasting Gable flashing to the gable end of any Corrapol® roof, with a simple Rock N Lock® system.

Corrapol® : Rock N Lock® Wall Flashing

The all new Corrapol® Rock N Lock® Wall Flashing is another world first that we have manufactured to help installers complete a roofs gable when abutting up to a wall. Allowing users to quickly and easily create a robust, long-lasting wall flashing the Patent Pending and Registered Design makes it simple to fix and seal the wall end of any Corrapol® roof. With the signature Rock N Lock® fixing system the Corrapol® Rock N Lock® Wall Flashing locks into place to create an extra level of waterproofing.

Corrapol® : Aluminium Super Ridge

Manufactured in White and Mill finish the Corrapol® aluminium Super Ridge is another game changer in the corrugated market. Protecting the ridge of a roof is crucial and with the installation of the Corrapol® Super Ridge you can add years of lifespan to your roof. Designed with integrated pre-formed foam gaskets to fit the corrugations of the Corrapol® sheets, the Corrapol® Super Ridge is an installer's dream. The patented design allows for a good variety of roof pitches with the gaskets being flexible enough to seal again the Corrapol® sheets, and create a longer lasting superior ridge solution.

Corrapol® : Aluminium Super Ridge End Cap

Crafted with striking form, our all new Corrapol® Super Ridge End Cap is designed to be the crowning element to every Corrapol® Corrugated ridged roof. Shaped to add new level of waterproofing to the end of a Corrapol® Super Ridge, the new Super Ridge End Cap helps protect one of the most crucial areas of installation and provides an unrivalled finish to user's roofs. Manufactured from aluminium, the new Corrapol® Super ridge is very durable and adds extra longevity to the lifespan a roof. The simple and innovative location prongs ensure that installation is fast and easy for DIYers and installers alike.

Corrapol® : Aluminium Top Wall Flashing

Our new Corrapol® Top Wall Flashing is another innovation designed with ease of installation and quality finish in mind. With its unique bi-angled shape the Top Wall Flashing works with multiple roof pitches making it easy for any installer to add to their roof. The unique patented and/or Registered Design foam gaskets help create a firm seal on the Corrapol® sheets below, whilst working with any pitch, ensuring strong waterproofing across the top of the roof. As with our other innovative aluminium components, the Corrapol® Top Wall Flashing is manufactured to match the colours of the Corrapol®-BT sheets in vibrant Red, Green, Black and Brown!

This illustration of the Corrapol® Top Wall Flashing indicates how the flat angle verticle edge is fixed directly onto the wall and made waterproof by covering the angled side and fixings with lead flashing.

Corrapol® : Pent Roof Flashing

Our Corrapol® Pent Flashing is designed to create a watertight and robust seal on the upper edge of a corrugated pent roof.

Produced from quality aluminium, the pent roof flashing has been created to provide a long-lasting roof flashing solution. It is compatible with all our high profile Corrapol® clear corrugated sheets, including the Stormproof®, GRP and PVC ranges.

Corrapol® : Eaves Filler

Corrapol® Foam Eaves Filler is manufactured from a flexible foam allowing successful sealing and draught proofing. The Corrapol® Foam Eaves Filler is made with closed-cell foam so does not absorb moisture and can also be used to further improve waterproof sealing.

Corrapol® : Superior Flexible Fixings

The Superior Corrapol® flexible fixings provide enhanced sealing to the contours of the curved peaks of the Corrapol® Stormproof sheets. Being a screw fixing they also enable the installer to control the fixing pressure, and allow removal of the fixings if needed. The caps are clear to give an aesthetically pleasing finish to the roof and can be used with either the white or mill finished Corrapol® Rock n' Lock Gable Flashing and Corrapol® Aluminium Super Ridge.

Corrapol® Stormproof : Technical Data

The value and quality of a construction material is indicated by the standards which it meets. The tables below list the stringent international standards Corrapol® Stormproof is expected to meet, including excellent fire-resistant qualities. The Corrapol® Stormproof resin has a softening point in excess of 120°C. Most products extruded in polycarbonate and tested to BS476 Pt7 achieve a class 1(Y) rating. The international results depicted in the chart below show just how high a rating Corrapol® Stormproof has achieved worldwide. Corrapol® Stormproof is less flammable and has a higher melting point than fibreglass, acrylic or PVC sheets.

Flammability and Construction Standards

Standard	Country	Corrapol® Thickness	Method	Designation or Rating
Flammability	France	0.8-1.0mm	NFP 92501 NFP 92504 NFP 92505	M-1
